Business KYC / CDD | Case KYC-01

Ihab Diab | Independent simulated learning project | Synthetic data only

Fictional customer profile

Applicant: Meridian Parts LLC. Business: wholesale automotive components. Claimed ownership: Avery Kim 60%, Blake Chen 25%, and Cedar Holdings LLC 15%. All identities and organizations are fabricated.

Risk-based information review

The profile provides a business purpose and ownership percentages, but lacks supporting identity details for owners, documentary formation evidence, and information about the controlling individual for Cedar Holdings LLC.

Information gaps and checks

Confirm current applicable beneficial ownership identification requirements and internal policy before requesting specific individuals. Obtain documentary details, assess business purpose, expected transactions, potential PEP/sanctions indicators, and follow-up documentation as appropriate.

Decision — simulated

Pending additional documentation. Do not mark the file complete or assign a final risk rating without corroboration. This is a fictional risk-based documentation exercise, not an actual CIP or sanctions screening result.

Learning outcome

Separates disclosed facts, information gaps, potential risk factors, and recommended next steps.

Disclosure: This document is a fictional training exercise. No real customers, sanctioned parties, bank systems, regulatory filings, or professional AML investigations were involved.
